distance under control

v-locator_{eco}

vehicle Monitoring without recurring monthly Costs

The v-locatoreco allows monitoring of vehicles and other mobile objects of any kind without recurring monthly costs.

The position of the vehicle is provided by an efficient GSM/GPS on-board computer. The owner can request the current position of the vehicle at any time and can display it on an internet based map.

The Onboard Unit

The v-locator vehicle tracking unit combines the receiver for the GPS satellite signals and the mobile radio unit for the transmission of the position reports from the vehicle to your mobile phone.

Product	Part-No.	Product Description	Price
